Vending Carts on Private Property

If you are considering purchasing, installing or using a vending cart, it is important to understand which Building Code and Zoning Code standards may apply. Factors such as the location of the vending cart, the type of vending cart, and the utility services used by the vending cart will determine what Building Codes and Zoning Codes may apply and what permits will be required.

Location of vending carts

If you are considering a vending cart, your first step should be to decide on the location. The location of the vending cart determines which codes apply and what permits may be required.

The information in this handout is related to vending carts on private property.

If you are considering locating a vending cart in the public right-of-way (on the sidewalk), the Portland Office of Transportation (PDOT) must approve this. To contact PDOT, call 503-823-7002, or visit their Web site at www.portlandonline.com/transportation for more information.

If you are considering a location for a vending cart on private property, check to see if the zoning on the site allows retail uses. To research zoning on a particular property, go to www.portlandmaps.com or call the Planning and Zoning information line at 503-823-7526.
Types of vending carts

Mobile vending carts

Mobile vending carts are on wheels. A building permit is not required for a mobile vending cart. A zoning permit may be required for development associated with the mobile vending cart such as changes to an existing parking area, landscaping, and drive-through facilities.

Vending carts that are 16 feet or less in length are regulated in the Zoning Code as Utility Trailers. Vending carts over 16 feet in length, with or without wheels, are considered Heavy Trucks by the Zoning Code, and are not allowed in certain zones. Call Planning and Zoning at 503-823-7526 for more information.

Fixed vending carts

Vending carts of any length that have had the wheels removed are considered buildings and are subject to Building Code and Zoning Code requirements. A fixed vending cart of any length is considered a building and is subject to setback, building coverage, ground floor windows, and other Zoning Code regulations.

A building permit is required for a fixed vending cart. Fixed vending carts are required to have a rest room facility located on the property, a person door at least 32 inches clear width and 80 inches high, an accessible ramp, and an approved permanent foundation.

If plumbing fixtures are included in the vending cart, a connection to the sanitary sewer and domestic water service will be necessary.

Additionally, electrical service, including permanently wiring the building and installing a permanently wired feeder next to the fixed vending cart will be required.

Drive-through vending carts

Drive-through vending carts of any length, both mobile and fixed, are regulated by the Zoning Code. Drive-through facilities are only allowed in certain zones and plan districts in the City of Portland. Drive-through regulations can be found in Chapter 33.224 of the Zoning Code. You may contact the Planning and Zoning information line at 503-823-7526 for more information.

Public health requirements

Vending carts providing food or beverages for public consumption must receive approval from the Multnomah County Health Department. Multnomah County requires that all plumbing fixtures be connected to an approved drainage system (OSPSC 304.0, 305.0 and 713.0). Visit the Multnomah County Health Department Web site at www.mchealth.org or call 503-988-3816 for more information.

Utility services to vending carts

Propane use

Portland Fire Bureau requires an annual permit for vending carts that utilize propane for cooking.

Water service and /or sanitary sewer

A plumbing permit is required if a water service or sanitary sewer is installed. The plumbing must comply with the Oregon State Plumbing Speciality Code.

Electrical service

An electrical permit is required for electrical work done.

Manufactured buildings

Manufactured buildings that are being used as fixed vending carts must have a stamp or insignia of approval issued by the State of Oregon.

Vending cart signs

Vending carts are allowed one portable sign (A-board) per cart. The sign must comply with Title 32.30.030, Portable Sign Regulations. For more information on registering a portable sign, please call 503-823-7526.

Helpful Information

Bureau of Development Services
City of Portland, Oregon
1900 SW 4th Avenue, Portland, OR 97201
www.portlandoregon.gov/bds
