RESOLUTION No.

Support the One Key Question initiative to improve reproductive health care and long-term community outcomes by helping women plan healthy pregnancies and prevent unintended pregnancies (Resolution)

Whereas, all pregnancies and babies should be wanted, planned and as healthy as possible; and

Whereas, almost one in two (48%) pregnancies in Oregon are unintended; and

Whereas, rates of unintended pregnancies disproportionately impact women of color and women in poverty; and

Whereas, women with unintended pregnancies are unlikely to have taken folic acid before conceiving and are less likely to receive prenatal care in the early months of fetal development and through their pregnancies, thus increasing the risk of babies born with health challenges; and

Whereas, women need reliable information, services and referrals in order to have optimal health, planned pregnancies and the best possible birth outcomes: and

Whereas, the Multnomah County Health Department piloted the ONE KEY QUESTION Initiative in a health center as part of an evaluation of care for women and families; and

Whereas, the pilot showed more than 14% of women wanted to become pregnant, yet most of them had not been offered preconception care; and

Whereas, among the women asked the One Key Question, the proportion using no method of contraception decreased from 26% to 4%, and the proportion using the most effective methods increased from 32% to 46%; and

Whereas, ONE KEY QUESTION ® is an initiative advocating that health care providers ask women at risk of pregnancy, “Would you like to become pregnant in the next year?” as a routine wellness assessment question. Asking this question gives women the opportunity to engage in conversations about their reproductive health care that can result in planned pregnancies and healthier babies

NOW THEREFORE BE IT RESOLVED, as a provider of housing and other services to people living in poverty, the City of Portland has an interest in assuring that more pregnancies are planned, receive appropriate care, and result in healthy babies; and therefore the Portland City Council endorses the ONE KEY QUESTION ® initiative and encourages all our community partners providing health care to ask the One Key Question during health care assessments

[Proceed to Public Involvement Section — REQUIRED as of July 1, 2011]
PUBLIC INVOLVEMENT

8) Was public involvement included in the development of this Council item (e.g. ordinance, resolution, or report)? Please check the appropriate box below:
   □ YES: Please proceed to Question #9.
   □ NO: Please, explain why below; and proceed to Question #10.

This is a report designed to encourage public awareness of the campaign, and offer Portlanders the opportunity to ask questions and/or comment in support or opposition to it in a City Council hearing.

9) If “YES,” please answer the following questions:

   a) What impacts are anticipated in the community from this proposed Council item?

   b) Which community and business groups, under-represented groups, organizations, external government entities, and other interested parties were involved in this effort, and when and how were they involved?

   c) How did public involvement shape the outcome of this Council item?

   d) Who designed and implemented the public involvement related to this Council item?

   e) Primary contact for more information on this public involvement process (name, title, phone, email):

10) Is any future public involvement anticipated or necessary for this Council item? Please describe why or why not.

It is hoped that more health care providers and community members will become aware of the campaign and include the One Key Question in conversations between providers and patients. Since the City does not provide or supervise health care directly, no further public involvement activities are envisioned by the City.
